

AFTERBEFORE

Attend the Opening of a Sound Art Installation at Nordhavnstippen

Saturday, August 16th: Be among the first to experience a brand new sound art piece (in English). Artist Åsa Frankenberg has developed the work '**AFTERBEFORE**', a journey through time and space with nature as its focal point. The idea for the piece emerged during a trip to Nordhavnstippen with Miljøpunkt Østerbro. Therefore, we invite you to the opening at this very location on August 16th between 3 and 5 PM.

Grab your smartphone and headphones and head out to Nordhavnstippen on Saturday, August 16th, for an extraordinary experience.

"AFTERBEFORE is an exploration of how things are connected. How we can understand ourselves, nature, and the world we live in by better understanding where things come from. Memories are like portals into the past, and in this case, also into the future," says artist Åsa Frankenberg. She adds that while the work can be experienced in many different places, the idea originated at Nordhavnstippen.

After the opening, the work will be available at www.afterbefore.nu

When: Saturday, August 16th, between 3 PM and 5 PM

Where: Nordhavnstippen - find us between the two lakes.

What to Bring: Headphones, a smartphone, and weather-appropriate clothing.
